**Customer Investment Objectives and Risk Tolerance**

Select the categories that best describe your investment objectives (and if joint that of any co-applicants) and the risk that you are willing to assume in this account. Different investment products and strategies involve different degrees of risk. The greater the expected returns of a product or strategy, the greater the risk that you could lose some or all of your investment. Investments should be chosen based on your objectives, timeframe, and tolerance for market fluctuations. (Note that a secondary investment objective is not required).

Select One Primary Investment Objective with Your Associated Risk Tolerance (Check one box only)				Select One Secondary Investment Objective with Your Associated Risk Tolerance (Check one box only)

**Investment Objective Descriptions**

- **Capital Preservation:** The object of capital preservation is to protect your initial investment by choosing investments that minimize the potential of a loss of principal. The long-term risk of this strategy is that returns may not offset inflation.
- **Income:** The primary objective of the income strategy is to provide current income rather than the long-term growth of principal.
- **Growth:** The objective of the growth strategy is to increase the value of your investment over time while recognizing a high likelihood of volatility.
- **Speculation:** A speculative objective assumes a higher risk of loss in anticipation of potentially higher-than-average gains by taking advantage of expected price changes. You recognize and are able to bear the full risk of the loss of some or all principal in such investments.

**Risk Tolerance Descriptions**

- **Low (Conservative):** I want to preserve my initial principal in this account, with minimal risk, even if that means this account does not generate significant income or returns and may not keep pace with inflation.
- **Moderate:** I am willing to accept some risk to my initial principal and tolerate some volatility to seek higher returns, and understand I could lose a portion of the money invested.
- **High (Aggressive):** I am willing to accept high risk to my initial principal, including high volatility, to seek higher returns over time, and understand I could lose all or a substantial amount of the money invested.
